Institute of Global Homelessness

The Institute of Global Homelessness

Founded in 2014, the Institute of Global Homelessness (IGH) is the first organization to focus on homelessness as a global phenomenon with an emphasis on those who are living on the street or in emergency shelters. IGH is a partnership between DePaul University (Chicago, USA), and Depaul International (London, UK), which provides direct services for people experiencing homelessness in the UK, Ireland, Ukraine, Slovakia, Croatia, USA, and France. Visit www.ighomelessness.org for more information.

Y-Säätiö

The Y-Foundation's goal is to end homelessness in Finland. It aims to do this by increasing the amount of affordable rental housing made available to homeless people. It builds, renovates and leases buildings in towns and cities across Finland. In 2016, Y-Foundation has total of 6,675 apartments and operate in 52 cities and municipalities. Homes are provided using the Housing First model through partnerships with municipalities and non-governmental organisations. Most of its homes are in central city locations. This enables residents to be close to work opportunities, amenities and support services. It also uses innovative designs and plans to support resident integration. By building supportive networks and engaging local authorities and non-governmental organisations to develop services for homeless people Y-Foundation provides significant support to its tenants, but with the goal of enabling them to live independently. Its aim is that, by 2020, two-thirds of its tenants will be living independently without need for support. For more information: <https://ysaatio.fi/en/>
